

Our innovative solar solutions offer flexible new options for sustainability to individuals, communities and businesses throughout the world.

Utility Scale Solar

Harness the worldwide resources of the DACC Global network to develop your large-scale solar installation.

- * procurement
- * deployment
- * project management
- * installation

Solar-powered Lighting Systems

Game-changing technologies offer exciting new options for on or off-grid solar-powered lighting.

- * remote locations/off-grid options
- * environmentally sensitive applications
- * reduced carbon footprint
- * lowered energy costs

Solar-powered Water Delivery Systems

Vital water resources are made more accessible using advanced solar technologies.

- * remote locations
- * improved infrastructure/distribution
- * land utilization
- * economic development opportunities

Off-grid Power Solution

Ultimate portability for remote installation and diverse power needs.

- * modular design
- * high energy density
- * minimal weight
- * easy installation
- low-maintenance
